

# Leadership in Environmental Action Projects

---

## Where Is Away?

Everyone throws trash away, but where is away? In the space below, draw what you think “away” looks like. Consider where it’s located, what’s around it, and don’t forget to draw the trash! You can also use words to describe your picture. When you’re finished, flip to the other side and list a few items that you’ve thrown away in the last week.

# Where is Away?

Items	Natural Resource	Compostable or Organic? yes/no	Can product be reused? yes/no	<del>Renewable</del> or Non-Renewable?	Recyclable or Non-Recyclable?	Can it be reduced? If so, what could be an alternative?
Cereal Box						
banana peel						
Soda can						
Milk carton
